I have never looked at the ADF source code, and I've done a fair job (IMO) of learning the intricacies of the framework. I disagree that you need the source code to become proficient - the source code is useful for debugging very obscure issues. John . Like Show 0 Likes; Actions ; 4. Re: ADF source code. 384063 Sep 24, 2010 9:29 AM (in response to John Stegeman) Being yourself an Oracle ACE ...

[My Learnings of Oracle ADF and JDeveloper \(FMW\)](#)

When I follow all other instructions from the code corner article and run my application, I get an error, stating that the method getEmployees() is not supported. Is it possible to pass extra arguments when paginating? How can I achieve that? I'm using JDeveloper 11.1.1.3 with ADF Faces and ADF Bindings. Apart from this web service POJO, we also use EJB's, but that's not relevant for this ...

[Developing Accessible ADF Faces Pages - Oracle](#)

This week I was working on a task to integrate Jasper Visualize.js into Oracle ADF application JSF page fragment. I must say integration was successful and Jasper report renders very well in Oracle ADF screen with the help of Visualize.js. Great thing about Visualize.js - it renders report in ADF page through client side HTML/JS, there is no iFrame. Report HTML structure is included into HTML ...
