He shattered sliding glass doors to watch them break, was lashed to a chair by a frustrated babysitter and, yes, set fires at his family's dinner table. Blake was diagnosed formally with ADHD when he was five years old. In this book he tells the story of the next twelve years as he learns to live with both the good and bad sides of life with ADHD. Blake's memoir offers, for the first time, a young person's account of what it's like to live and grow up with this common condition. It will be an ...

Blake Taylor wrote ADHD and me in his last two years of high school. With a great deal of humor, (oneself laughed out loud multiple times) the author tells stories illustrative of the problems he faced as a young child processing into a mature man. But this book goes far beyond a simple memoir; it is cleverly organized in chapters each containing three parts. Each begins with a funny and poignant retelling of a particularly illustrative story from Blake's childhood and youth ...
