

ADHESION MOLECULES HANDBOOK OF IMMUNOPHARMACOLOGY

Jan 23, 2021

[Adhesion Molecules Handbook Of Immunopharmacology](#)

The precise combination of chemokines and vascular adhesion molecules present in an inflammatory lesion determines the specificity of time and event for the recruitment of subsets of inflammatory cells. Ligation of integrins on leukocytes also prolongs cell survival once they have moved into the tissue, by preventing apoptosis. The central role of certain specific adhesion molecule-ligand ...

Furthermore, higher production of IL-6 and adhesion molecules, such as ICAM-1 and VCAM-1, occurs in endothelial cells stimulated by histamine, thereby favouring progression of the disease [56, 57]. In an experimental model, the absence of H1R reduced the development of atherosclerosis, whereas the absence of H2R exerted the opposite effect .
