Nursing requires leaders who are highly creative in their thinking, to be able to piece together multiple pieces of seemingly unrelated information, and test out new approaches in the pursuit of new meaning in support of nursing patient care (The World Economic Forum, 2016; Courtney, Nash, Thornton, & Potgieter, 2015). It will no longer be about the "nursing leader"; rather it will be ...

A critical dilemma this raises for medical professionals is how to manage the ceding of control. Clinicians could see co-creation either as a threat or as an opportunity to replace paternalism with mutual trust [19]—the long sought-after goal of the patient-centered movement. The potential for clinicians to act as guides for, and partners with, patients navigating the economic and political ...

Not only lots of critical issues related to nursing discussed, but would most likely be a great resource for any topic you ultimately pick. And it's a new book, so up to date. as far as NICU, there was a recent futile care issue in Houston, where care to an infant was withdrawn against the wishes of the parents because the hospital's ethics board decided the care was futile - no possibility of ...

[Critical Care Clinics | Economics of Critical Care ...](#)

What's at issue is the ability for the nurses to diagnose, prescribe medications and offer treatment to patients, independent of a physician. Advanced practice nurses typically have a bachelor's degree in nursing, have practiced for at least several years and then completed master's-level work to qualify to perform advanced tasks. These include delivering babies in uncomplicated births ...

[The big issues in nursing | Nursing Times](#)

In an article published in the July/August 2009 issue of Health Affairs, Dr. Peter Buerhaus and colleagues confirmed that the economic recession has led to a temporary easing of the nursing shortage in some parts of the country, even though the shortfall in the number of nurses needed is expected to grow to 260,000 by the year 2025.

[The Profession of Nursing - Jones & Bartlett Learning](#)

Ethical Motivation All nurses want to be ethical and live in a manner consistent with their personal and professional values. Although they may recognize an ethical issue and be aware of their role-associated obligations, personal and/or institutional barriers may impede their motivation to act.

[A Closing Word: Nursing and Politics | Article | NursingCenter](#)

Many professional nurse / trade associations in US oppose the recruitment of such foreign nurses stating that the government should focus on strengthening the U.S. nursing education system rather than relying on this process (Dugger, 2006). These arguments point to the fact that the American nursing schools had rejected almost 150,000 applications from qualified people in 2005 alone due to lack ...

[Legislative: Economics of Nursing Invitational Conference ...](#)

THE CONSTANT changes in today's healthcare landscape require nurses to stay current in technology and practice.¹ According to the Code of Ethics for Nurses, nurses have a responsibility to "maintain competence, and continue personal/professional growth."² Continuing education and staff development are fundamental components of being a professional nurse.^{3,4} This article examines how one ...
