Anyway, my friend gave me a palomar TX-75 and schematic he had stashed in the closet. its missing the top cover, there is no internal physical damage, but he told me he didnt know if it works or not. Ok, i powered the unit up, and the power led comes on. as soon as you key the mic, the RF out light goes on, the relay will toggle over, and the 100 watt lightbulb (lacking a dummy load). glows ...

Then off to the side I spot this Palomar TX 100 in decent shape priced at \$10. SOLD! Got it home and found a warranty sticker in the heatsink showing it was sold in 1980. There is also a seal bridging the gap between the chassis and the heatsink that is unbroken so it's a good chance the inside is clean. I can't seem to find much if anything about this model searching the forum or online. Most ...
