Participatory Action Research (PAR) is a process through which people investigate meaningful social topics, participate in research to understand the root causes of problems that directly impact them, and then take action to influence policies through the dissemination of their findings to policymakers and stakeholders. Like other types of youth organizing, PAR promotes youth's involvement ...

Action research is a philosophy and methodology of research generally applied in the social sciences. It seeks transformative change through the simultaneous process of taking action and doing research, which are linked together by critical reflection. Kurt Lewin, then a professor at MIT, first coined the term "action research" in 1944. In his ...
